# WELCOME TO A NEW FEELING OF HOME

---

Siden 1853 har Morsø, gennem design, innovation og håndværk, været synonym med de varme og solide rammer, som vi kalder følelsen af hjem. Vi er stolte over at kunne viderebringe Morsøs håndværkstraditioner og kvalitetsdesign i vores produkter inden for Kitchen, Dining og Living. De kombinerer på fineste vis Morsøs unikke historie med moderne, visionært design og materialevalg. Men allermest er vi stolte af at kunne viderebringe følelsen af hjem.

Since 1853, design, innovation and craftsmanship have made Morsø synonymous with the feeling of home. We are both proud and delighted to carry on our long tradition of quality craftsmanship and innovative design in our Kitchen, Dining and Living products. In every way, they combine the unique history of Morsø with visionary design and superb choice of materials. But most of all, we are proud to continue to create the feeling of home.

# IT'S ALWAYS ABOUT PEOPLE

---

Hos Morsø har vi gennem historien arbejdet med mange forskellige designere, som alle med stor dedikation har tænkt, tegnet og bygget de produkter, som vi stolt lægger navn til i dag. De designere der, gennem deres håndværk, behersker kunsten at formgive de ting, der for så mange mennesker skaber samlingssteder i deres hjem. En kunst, der skiller sig ud fra det, vi almindeligvis forstår ved kunst ved at være tiltænkt et konkret formål. Netop dette er selve kernen i det udtryk, som vi i Morsø altid har søgt, udviklet og opnået. Nogle kalder det industriel design, andre vil måske driste sig til at kalde det brugskunst, men i begge tilfælde består selve kunsten i at skabe den perfekte balance mellem en konkret praktisk værdi og en oplevet følelsesmæssig værdi. At gøre det succesfuldt siden 1853 er ikke kun et spørgsmål om håndværk og kreativitet – men også historiske omstændigheder, mode og politik – navnlig i forhold til materialer. Men før alt andet, er det et spørgsmål om mennesker. Både de mennesker, der skaber produkterne, og de, der bruger dem til at skabe deres hjem.

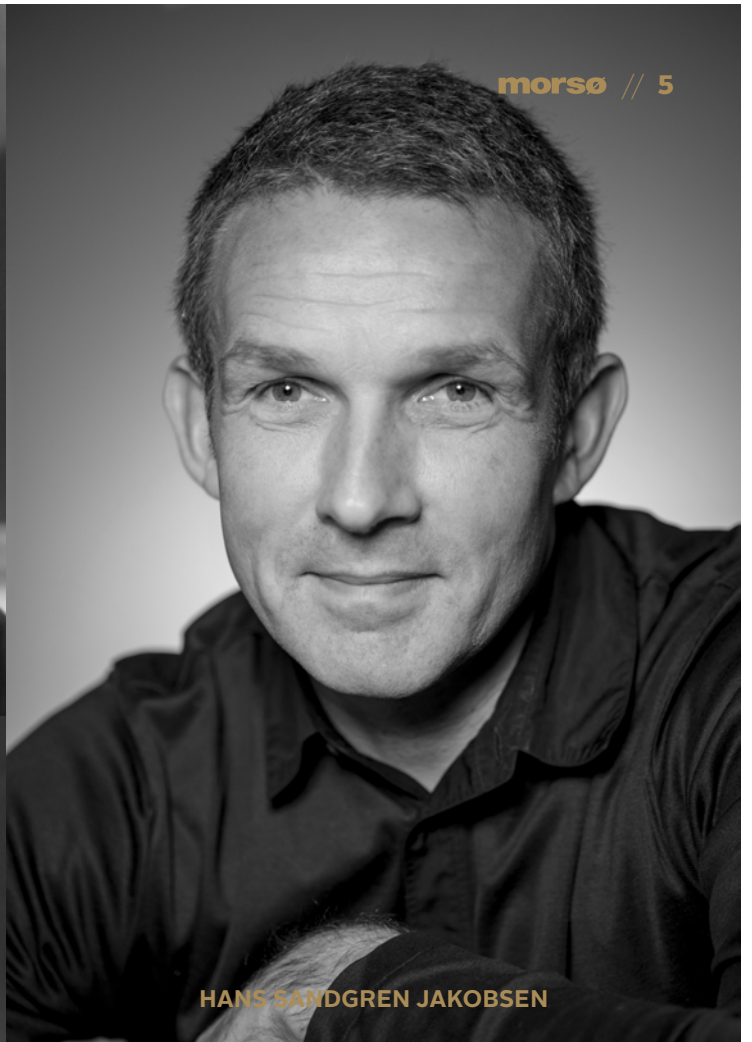

Throughout Morsø's history, we have worked with many different designers, all of whom have brought great dedication to conceiving, designing and constructing the products that we proudly put our name to today.

Through their work, these designers have mastered the art of shaping the things that, for so many people, create gathering places in their homes. An art that distinguishes itself from what we all know as art by being intended for a specific purpose. This is what is at the very heart of the design aesthetic that we at Morsø have always sought, developed and achieved. Some call it industrial design, others may view it as applied art, but in both cases the art itself consists in creating the perfect balance between a tangible practical value and an experienced emotional value. Doing so successfully since 1853 is not just a matter of craftsmanship and creativity – but also of historical circumstances, fashion and politics – especially in relation to materials. But before everything else, it's a matter of people. Both the people who create the products and those who use them to create their homes.

# CAPTIVATING MOMENTS

# WORDS ARE ALWAYS IMPORTANT!

---

Ord er vigtige, men svære at få sagt.

Ord bliver også hurtigt glemt. Når nogen siger noget sødt eller pænt til os, overskygges det hurtigt i en kvik bemærkning af vores egen kommen i tvivl.

Morsø-skulpturen kan sammen med ord gøre en forskel. Den kan være et statement, en slags symbiose med de sagte, pæne ord. En symbiose der varer ved og ved. En buket blomster er også skøn, men efter 14 dage er den glemt, og chokoladen er spist.

Skulpturen bliver ved at være med. Man ser den flygtigt eller hver dag, og man ved hvem der gav den. De ord, der blev sagt eller skrevet, forbinder man med skulpturen. Derfor en symbiose.

Ord kan være svære for nogle, og i visse situationer kan det være svært at få sagt og udtrykt det vigtige.

Derfor er denne skulptur et lille statement. Skulpturen kan være budbringeren og sige det, som er svært at sige med ord og sætte ord på.

Skulpturen er ord, der ikke forsvinder over tid.

Skulpturen skal bruges til at fortælle at man:

- er omsorgsfuld
- gjorde det
- er på vej ud i sit livs eventyr
- altid skal følge sit hjerte
- må mærke efter og at det er ok at følge det
- giver et kram

Words are important, but they can be difficult to say.

Words are also quickly forgotten. When someone says something kind or nice to us, it is quickly overshadowed by our own self-doubt.

The Morsø sculpture, together with words, can make a difference. It can be a statement, a kind of symbiosis with the kind words that are said. A symbiosis that lasts and lasts. A bouquet of flowers is also lovely, but after 2 weeks it is forgotten and the chocolate has been eaten.

The sculpture, on the other hand, continues to last. You see it fleetingly or every day, and you know who gave it. The words that were said or written are connected with the sculpture. Creating a symbiosis.

Words can be difficult for some people, and in certain situations it can be hard to say and express what is important.

This sculpture can act as a small statement. A messenger that expresses a sentiment that can be hard to put into words.

The sculpture represents words that do not vanish over time.

The sculpture can be used to say that you:

- are caring
- did it
- are heading toward your life's adventure
- should always follow your heart
- have to feel and know that it's ok to follow it
- give a hug

# A MOTHER'S LOVE IS ETERNAL

---

Mor bliver glad for disse ord. Ord der lever for evigt og er et synligt budskab om kærligheden.

Vores børn har den største betydning for os. Vi ved, at mors kærlighed lever for evigt, uanset om du er moderen eller barnet. En mor vil gøre alt for at glæde sine børn og lade dem mærke kærligheden, mærke at den lever.

Når vores første barn kommer, er vi spændte, men også nervøse for, om vi formår opgaven. Om vi lever op til både vores egen forventning og til omverdenens anskuelse af, hvad og hvordan forældre er. Men evnen til at opfylde forventningerne bor i os. Den kommer frem og vokser med kærligheden til det lille barn. Det kan vi stole på.

Kærligheden vokser. Vores børn er det bedste, vi har, og der er altid kærlighed nok til flere. Kærligheden til vores børn er der for evigt, uanset hvor stor flokken er.

Mor kan være hård, det skal hun være. Det former og opdrager os, og det er kærlighed. Mors kærlighed er skrøbelig og stærk, hun viser den med sit nærvær, sin omsorg og sine kærtegn. At skulpturen er så lille, at den kan ligge i din hånd, illustrerer netop det.

Skulpturen kan være i din hånd, den kan være tæt på i det omfang, du ønsker at have den tæt på.

På natbordet, sofabordet, en lille hylde, på badeværelset eller i tasken. Den lille skulptur er en gave med en stor betydning, der fortæller det hele til en mor.

Fortæl mor, at du elsker hende og ved, at hun elsker dig!

Mum will be pleased to hear these words. These everlasting words visibly impart the feeling of love.

Our children are essential to our being. We know that a mother's love is everlasting, whether you are the mother or the child. A mother will do anything to please her children and let them feel love, feel that her love is alive.

When our first child is born, we are excited, but also nervous about whether we are up to the task. Whether we can meet our own expectations and live up to what the surrounding world expects of us as parents and what parenting entails. But the ability to meet expectations resides within us. It emerges and grows with the love for our little baby. We can count on it.

The love grows. Our children are the best we have, and there is always more than enough love to go around. The love for our children is eternal, no matter how many siblings there are.

A mother can be strict, because sometimes she has to be. Her guidance shapes and teaches us and is the essence of love. A mother's love is vulnerable yet strong; she manifests her love through her presence, her caring and her affection. The fact that the sculpture is so small that it can fit in your hand illustrates just that.

The sculpture can be held in your hand; it can be as close as you want it to be.

On the bedside table, coffee table, a small shelf, in the bathroom or in your handbag. The small sculpture is a gift of profound meaning that says it all to a mother.

Tell mum that you love her and that you know she loves you!

A photograph of a steep, layered cliffside overlooking a rocky beach under a cloudy sky. The cliff face shows distinct horizontal geological strata in shades of brown and tan. The foreground is a wide, rocky beach with many small, light-colored stones. The sky is filled with soft, grey clouds. The overall mood is serene and natural.

MORSØ PODIE/RULLEBORD

In 1853, the young N. A. Christensen left his occupation as a bookkeeper to begin his iron foundry adventure – an adventure that took its beginning in Nykøbing Mors. Despite fierce competition from other foundries in larger towns, the small handful of blacksmiths, turners and joiners would create an icon that would come to extend far beyond this North Jutland town from which it sprung. It was an icon created through innovation, based on design, quality and fine workmanship. And, thus, it will forever be sitting pretty in Danish homes as well as out in the great wide world. An icon that we have all come to know as Morsø.
